**The Chinese American Real Estate Association (CAREA)
stands with Asian American communities**

San Jose, CA, March 22, 2021 - CAREA recognizes that ALL forms of discrimination, whether based on faith, race, gender, sexual orientation, ethnicity or national origin, undermines our fundamental right to succeed in our chosen careers and participate fully and equally as Americans.

For these reasons, we are deeply saddened, horrified and outraged by the despicable killings in the Bay Area and Atlanta, and by the recent surge during the pandemic of hate crimes and racial attacks directed to our Asian American brothers and sisters across the country. As a community-based organization, we feel it is imperative for us to unequivocally condemn all anti-Asian slurs and prejudice. At CAREA, we too experience personally the devastating emotional toll and trauma caused by anti-Asian hatred. In solidarity we express our heartfelt support for all of our Asian American associates and colleagues.

In this time of increased risk of crime and hatred directed to us, we urge everyone to be extra vigilant in ensuring our own personal safety, to support each other in combating racism, and be courageous in reporting hate crimes whether as victim or eyewitness to law enforcement, and StopAAPIHate.org.

Finally, please join CAREA Board members in making a charitable donation to StopAAPIHate.org to empower this well-established and respected organization in advocating and fighting for justice for all Asian Americans.

About CAREA

The Chinese American Real Estate Association (CAREA) is a non-profit tax-exempt 501(C)(6) organization established to promote the social and economic well-being of our associates and further the professional image of Chinese-Americans who are engaged in the field of real estate. CAREA's mission includes instilling higher business standards and methods, encouraging cooperation, and sharing services, encompassing not only real estate licensees, but also affiliates such as escrow or title officers, underwriters, lenders, insurance brokers, and interior and construction design professionals.
